Get ready for a fun day when you explore Lincoln with 55PLUS. You'll be surprised at the many interesting things to see in the capital city.

Your first stop will be a choice — visit the International Quilt Study Center and Museum. This beautiful building located on the east campus houses the largest publicly held quilt collection in the world. They store over 3,500 quilts that date from the early 1700's to the present and represent more than 25 countries. The number of quilts on display will depend on the exhibit at the time.

Or, visit the University of Nebraska Tractor test lab that is designated as the official tractor testing station for the United States Government. You'll see the equipment and learn about how they rate and test tractors for commercial use. You will also visit the tractor museum which houses antique tractors and is located in the original tractor test lab used by the University in the early years.

Later this morning take a tour of Memorial Stadium, walk on the field, and see the training center and weight room the Huskers use. After lunch head back to East campus for a tour of the NETV facilities. It's here that public television for the state of Nebraska is broadcast.

Special treat this afternoon is the Museum of American Speed at Speedway Motors. It's the world's largest collection of exotic racing engines and vintage speed equipment.

Founded in 1992 by "Speedy" Bill and Joyce Smith, the Smith collection of American Speed is dedicated to preserving, interpreting, and displaying items significant in racing and automotive history.

With over 135,000 square feet on three levels, this vast collection is the result of the Smith's personal involvement in racing and hot-rodding for more than six decades.

Lastly, get a taste of the vine at James Arthur Vineyards. Enjoy the beautiful outdoor setting while sampling their wines with appetizers.
